Intel® Server System M20MYP

Entry-level servers play essential roles for enterprise data centers, cloud providers and small and medium businesses.

Intel® Server System M20MYP delivers the cost efficiency and flexibility you expect, while delivering exceptional performance and built-in security enhancements in an entry-level server.

Intel's 24x7 global support and 3-year warranty make them easy to own. And they come with comprehensive documentation, simplifying deployment, operations and management.
